Synoptic Gospels Wikipedia

The "synoptic problem" is the question of the specific literary relationship among the three synoptic gospels that is, the question as to the source or sources upon which each synoptic gospel depended when it was written. The texts of the three synoptic gospels often agree very closely in wording and order, both in quotations and in narration.

St. John may also have been influenced by dogmatic interests, although it is not of course suggested that his dogmatic interests were by any means identical with those of St. Luke. Finally, Mr. Gardner-Smith observes that, if his arguments are justified, St. John's Gospel need not necessarily be the last of the four gospels in respect of date.

Did John Know the Synoptic Gospels Reading Acts

We are talking about a book written somewhere around 90 AD which is 60 years after Jesus left the earth which was after the other gospels were written. To the question did John know the synoptic gospels I would assume it would be hard to miss the synoptic gospels during that time period. John would have to heard them somehow.
